

Roller toasters

One of the most advanced conveyor toasting systems available in the market today

With the addition of three new bun models the range now offers you the choice of an RT1300 machine for up to 400 slices per hour, the RT1400 machine with the output of up to 800 slices per hour and an RT1500 version with an option of up to 1200 slices per hour.

All machines feature an internal cooling fan, electronic motor control, independent element control and a low friction toast slide that can be used in either 'front only' or 'pass through' operation, and are capable of toasting bread, buns, tea cakes, muffins etc. continuously.

RT1300

RT1400

RT1500

MODEL	VOLTAGE	POWER RATING	OUTPUT SLICES/HR	ELEMENTS	DIMENSIONS
RT1300 (BREAD/BUN)	230 v	3 kw	up to 400	2 x 1.5 kw	320 x 620 x 480 mm
RT1400 (BREAD/BUN)	230 v	5 kw	up to 800	2 x 2.5 kw	490 x 620 x 480 mm
RT1500 (BREAD/BUN)	230 v	7 kw	up to 1200	2 x 3.5 kw	580 x 620 x 480 mm

Features include

- Toast rack on top of machine
- Overheat warning lamp
- "Bun Mode" switch
- 3 phase available
